84" UNIVERSAL WEAPONS RACK

Spacesaver Universal Weapons Rack Reaches New Heights!

Spacesaver adds a new 83.75 inch tall cabinet to the existing line of weapon racks. The taller design allows for added flexibility in your arms rooms without compromising security. The intermediate shelf allows for two-tier storage of M4s, M16s, MK16s and MK17s.

STANDARD FEATURES

The new cabinet has the same security features as the original weapon rack:

- Bi-fold, retractable doors that prevent blocking aisles or neighboring racks and maximizes efficiency of the issuance of weapons and gear.
- Perforated doors, sides and cabinet back aid in the efficiency of conducting weapons inventory.
- Locking bars exceed military requirements for arms security of conventional arms, ammunitions and explosives.
- Fully welded cabinet.
- Locking bars exceed military requirements for arms security of conventional arms, ammunitions and explosives.
- All Spacesaver UWR cabinets meet both OPNAVINST 5530.13C and AR 190-11 security requirements.

All accessories that come into contact with the weapons are either powder-coated, vinyl-dipped, rubber, thermoplastic-coated, or made from thermoplastic, ensuring weapons are safe from damage.
