

Freestanding Sort Module with open cabinet base.

Enclosed cabinet base with sliding doors.

Open cabinet base with slide-out reference shelf.

Freestanding Sort Module (below), with full-height doors.

Freestanding Sort Modules

Hamilton Sorter Freestanding Sort Modules maximize space utilization and provide versatile, fully adjustable shelf storage with full width labels. Open and closed cabinet bases are available for bulk storage and full-height doors are an option for security. Slide-out reference shelves are an added benefit that provide a temporary worksurface for sorting. See our Specifications Guide for more details and standard sizes, or we can modify sizes for special applications.
